

WHAT IS CLAIMED IS:

1. A golf club carrier comprising:
 - a carrier body,
 - a golf bag supported by the carrier body for holding a plurality of golf clubs;
 - two wheels connected to the carrier body;
 - a handle connected to the carrier body for permitting a person to move the carrier;
 - a hitching device connected to the carrier body for connecting to another hitching device on a golf cart; and
 - an assist device connected to the carrier body for assisting lifting of the club carrier.
2. The golf club carrier as recited in claim 1 wherein the assist device includes a spring.
3. The golf club carrier as recited in claim 1 further comprising a support surface, the golf club carrier capable of standing upright when the support surface and the wheels contact ground.
4. The golf club carrier as recited in claim 1 wherein the hitching device includes a mount claw.
5. The golf club carrier as recited in claim 1 wherein the wheels have an axis, the axis being movable with respect to the carrier body.
6. The golf club carrier as recited in claim 5 wherein the axis of the wheels is movable via the handle.
7. The golf club carrier as recited in claim 6 wherein the handle is rotatable to move the axis.
8. The golf club carrier as recited in claim 6 wherein the handle is latchable.

9. A golf club carrier comprising:

- a carrier body,
- a golf bag supported by the carrier body for holding a plurality of golf clubs;
- two wheels connected to the carrier body, the wheels having an axis, the axis being movable with respect to the carrier body;
- a handle connected to the carrier body for permitting a person to move the carrier; and
- a hitching device connected to the carrier body for connecting to another hitching device on a golf cart.

10. The golf club carrier as recited in claim 9 wherein the axis of the wheels is movable via the handle.

11. The golf club carrier as recited in claim 9 further comprising a support surface, the golf club carrier capable of standing upright when the support surface and the wheels contact ground.

12. The golf club carrier as recited in claim 9 wherein the hitching device includes a mount claw.

13. The golf club carrier as recited in claim 10 wherein the handle is rotatable to move the wheels.

14. A carrier for attachment to a golf car comprising:

- a carrier body;
- two wheels connected to the carrier body;
- a handle connected to the carrier body for permitting a person to move the carrier;
- a hitching device connected to the carrier body for connecting to another hitching device on the golf car; and
- an assist device connected to the carrier body for assisting lifting of the carrier.

15. The carrier as recited in claim 14 wherein the wheels have an axis, the axis being movable with respect to the carrier body.
16. The carrier as recited in claim 15 wherein the axis of the wheels is movable via the handle.
17. The carrier as recited in claim 16 wherein the handle is rotatable to move the axis.
18. The carrier as recited in claim 16 wherein the handle is latchable.
